PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER-DECEMBER, 1959.

This Report is the first issue of a companion series to the "Federal Government Employment" report which presents details of employment and payrolls of the Government of Canada. The two series give details of federal and provincial government employment and will ultimately be supplemented by a third series covering the municipal government field.

In making comparisons between the federal and provincial government employment series two basic differences should be mentioned. In regard to earnings the provincial series includes, in the amounts shown, all earnings of persons on the payroll of the provincial government including overtime and all types of special payments; whereas, in the federal series, the amounts shown in the main tables of the report include only the basic salary of employees, not including such special items as overtime, isolation pay, and other similar payments. The second major difference relates to the definitions of employees. In the provincial series employees have been divided into two main groups, namely, "regular" and "casual". Regular Employees include those employed full-time on a permanent continuous basis, regardless of whether their earnings are based on an annual salary, or monthly, weekly, daily or hourly rates. Casual employees, on the other hand, include those who are employed on a seasonal, emergency, or part-time basis, where the duration of employment is limited and continuity is therefore lacking. This differs from the federal government employment report where persons employed on a seasonal basis are included in "salaried" employment totals if such employment is based on an annual salary rate. Likewise persons employed part-time are also included with the "Salaried" statistics if the employment is based on an annual salary rate. Prevailing rate employees who are employed seasonally or part-time are included in the "prevailing rate" figures in the federal government report.

Classification of these statistics by function permitting comparison between federal and provincial employment is discussed further at a later point in this text.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded. The information for the general fund and Government Enterprises for the Provinces of Quebec and British Columbia is not available at the present time.

Tables 3 and 4, which record details of casual employment, indicate considerable fluctuations in the numbers and earnings shown for the Departmental Services. This fluctuation is almost entirely due to changes in the casual staffs employed in high way work in each province.

Functions and activities of government are varied in their nature and are carried out through differing types of organization. For statistical purposes, groupings and classifications of these functions and activities are needed and these do not necessarily follow the organizational divisions in practice in any one government or group of governments. For purposes of useful comparison the statistics presented in this document follow principles evolved at Dominion-Provincial Conferences on Provincial Finance Statistics.

1. GENERAL FUND: This comprehends the activities carried on by provincial governments as reflected in their estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "general fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments".

2. PROVINCIAL UNIVERSITIES: These are as follows:

Memorial University of Newfoundland
University of New Brunswick
University of Toronto
Lakehead College of Arts, Science and
Technology (Port Arthur)
University of Manitoba
University of Saskatchewan
University of Alberta
University of British Columbia.

It will be noted that this group does not include certain provincial government institutions that are considered in some degree to be provincial universities, such as Ontario Agricultural College, Ontario Veterinary College, and others.

These are included in group one, "General Fund". On the other hand, figures given for universities include subsidiary organizations. For example, University of Toronto includes Connaught Medical Research Laboratories.

3. PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or shared-capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently they should be reported separately from general activities in statistical presentations. A list of these enterprises by province follows this text.

The purpose of this survey of provincial government employment is to:
(1) enable the Dominion Bureau of Statistics to fill a gap in statistics relative to national labour force and national income and expenditure accounts, (2) provide governments with figures which will serve their needs for statistical measurements of employment.

An analysis of "general fund" services is presented according to function. This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not subject to changes in administrative structure which occur from time to time it is possible to develop a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not affect a function classification it is possible to measure the

extent of employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Employment and earnings have been reported for each pay period and, in general, are divided between "casual" and "regular" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals shown for the final pay period and the total earnings for the entire month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of the casual employment figures where the numbers on strength may vary substantially within a single month.

For purposes of this survey it has been necessary to establish two main categories of employees, namely, "regular" and "casual", because of a lack of uniformity in the official classes defined by the several provinces. A description of regular and casual has already been given. Regular employees include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are footnoted in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

A list of the enterprises of each provincial government included in the report follows:

Provincial Government Enterprises

Newfoundland: -

Liquor Control Board
Newfoundland Savings Bank
Workmen's Compensation Board
Newfoundland and Labrador Corporation
St. John's Housing Corporation
Newfoundland Hardwoods Ltd

Prince Edward Island: -

Workmen's Compensation Board
Prince Edward Island Temperance Commission

Nova Scotia: -

Nova Scotia Liquor Commission
Workmen's Compensation Board
Power Commission
Keltic Lodge, Uniacke House
Land Settlement (Agriculture)

Provincial Government Enterprises - (Concluded)

New Brunswick: -

New Brunswick Electric Power Commission
Workmen's Compensation Board
New Brunswick Liquor Control Board

Ontario: -

Workmen's Compensation Board
Liquor Control Board of Ontario
Ontario Savings Office
Ontario Northland Railways
Hydro Electric Power Commission
Ontario Stock Yards
Ontario Food Terminal
Ontario Water Resources Commission

Manitoba: -

Manitoba Liquor Control Board
Manitoba Telephone System
Manitoba Power Commission
Workmen's Compensation Board
Manitoba Hydro-Electric Board

Saskatchewan: -

Saskatchewan Government Airways
Saskatchewan Government Forest Products:
 Timber Board
Saskatchewan Government Finance Office
Saskatchewan Government Insurance Office
Saskatchewan Government Liquor Board
Saskatchewan Government Marketing Service:
 Co-operative Fisheries Limited
 Federated Co-operatives
 Saskatchewan Fur Marketing
Saskatchewan Mineral Corporation:
 Clay Products Division
 Sodium Sulphate Division
Saskatchewan Government Printing Company
Saskatchewan Power Corporation
Saskatchewan Government Seed Plant
Saskatchewan Government Telephones
Saskatchewan Transportation Company
Workmen's Compensation Board

Alberta: -

Alberta General Insurance
Alberta Government Telephone
Alberta Liquor Control Board
Alberta Marketing Services Ltd
Alberta Workmen's Compensation Board
Alberta Government Treasury Branches

PROVINCIAL GOVERNMENT EMPLOYMENT

PROVINCIAL GOVERNMENT EMPLOYMENT

JANUARY-MARCH, 1960

This Report is a companion series to the "Federal Government Employment" which presents details of employment and payrolls of the Government of Canada. The two series give details of federal and provincial government employment and will ultimately be supplemented by a third series covering the municipal government field.

In making comparisons between the federal and provincial government employment series two basic differences should be mentioned. In regard to earnings the provincial series includes, in the amounts shown, all earnings of persons on the payroll of the provincial government including overtime and all types of special payments; whereas, in the federal series, the amounts shown in the main tables of the report include only the basic salary of employees, not including such special items as overtime, isolation pay, and other similar payments. The second major difference relates to the definitions of employees. In the provincial series employees have been divided into two main groups, namely, "regular" and "casual". Regular Employees include those employed full-time on a permanent continuous basis, regardless of whether their earnings are based on an annual salary, or monthly, weekly, daily or hourly rates. Casual employees, on the other hand, include those who are employed on a seasonal, emergency, or part-time basis, where the duration of employment is limited and continuity is therefore lacking. This differs from the federal government employment report where persons employed on a seasonal basis are included in "salaried" employment totals if such employment is based on an annual salary rate. Likewise persons employed part-time are also included with the "Salaried" statistics if the employment is based on an annual salary rate. Prevailing rate employees who are employed seasonally or part-time are included in the "prevailing rate" figures in the federal government report.

Classification of these statistics by function permitting comparison between federal and provincial employment is discussed further at a later point in this text.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded. The information for the general fund and Government Enterprises for the Provinces of Quebec and British Columbia is not available at the present time.

Tables 3 and 4, which record details of casual employment, indicate considerable fluctuations in the numbers and earnings shown for the Departmental Services. This fluctuation is almost entirely due to changes in the casual staffs employed in highway work in each province.

Functions and activities of government are varied in their nature and are carried out through differing types of organization. For statistical purposes, groupings and classifications of these functions and activities are needed and these do not necessarily follow the organizational divisions in practice in any one government or group of governments. For purposes of useful comparison the statistics presented in this document follow principles evolved at Dominion-Provincial Conferences on Provincial Finance Statistics.

The purpose of this survey of provincial government employment is to:

(1) enable the Dominion Bureau of Statistics to fill a gap in statistics relative to national labour force and national income and expenditure accounts, (2) provide governments with figures which will serve their needs for statistical measurements of employment.

An analysis of "general fund" services is presented according to function. This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not subject to changes in administrative structure which occur from time to time it is possible to develop a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not affect a function classification it is possible to measure the extent of employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Employment and earnings have been reported for each pay period and, in general, are divided between "casual" and "regular" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals shown for the final pay period and the total earnings for the entire month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of the casual employment figures where the numbers on strength may vary substantially within a single month.

For purposes of this survey it has been necessary to establish two main categories of employees, namely, "regular" and "casual", because of a lack of uniformity in the official classes defined by the several provinces. A description of regular and casual has already been given. Regular employees include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are footnoted in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).

2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
University of Toronto
Royal Conservatory of Music
Lakehead College of Arts, Science and
Technology (Port Arthur)
University of Manitoba
University of Saskatchewan
Regina College
University of Alberta
University of British Columbia
Victoria College.

3. PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or shared-capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently they should be reported separately from general activities in statistical presentations. A list of these enterprises by province follows this text.

Provincial Government Enterprises

Newfoundland: -

Atlantic Gypsum Ltd. 1/
Liquor Control Board
Newfoundland Savings Bank
Workmen's Compensation Board
The Jubilee Guilds of Newfoundland 2/
St. John's Housing Corporation
Newfoundland Hardwoods Ltd.
Division of Northern Labrador Affairs 2/

Prince Edward Island: -

Workmen's Compensation Board
Prince Edward Island Temperance Commission

1/ Not included prior to January, 1960.

2/ Previously reported with departmental services.

Provincial Government Enterprises - (Concluded)

Nova Scotia: -

Nova Scotia Liquor Commission
Workmen's Compensation Board
Power Commission

Keltic Lodge, Uniacke House
Land Settlement (Agriculture)

New Brunswick: -

New Brunswick Electric Power Commission
Workmen's Compensation Board

PROVINCIAL GOVERNMENT EMPLOYMENT

April-June, 1960

This Report is a companion series to the "Federal Government Employment" which presents details of employment and payrolls of the Government of Canada. The two series give details of federal and provincial government employment and will ultimately be supplemented by a third series covering the municipal government field.

In making comparisons between the federal and provincial government employment series two basic differences should be mentioned. In regard to earnings the provincial series includes, in the amounts shown, all earnings of persons on the payroll of the provincial government including overtime and all types of special payments; whereas, in the federal series, the amounts shown in the main tables of the report include only the basic salary of employees, not including such special items as overtime, isolation pay, and other similar payments. The second major difference relates to the definitions of employees. In the provincial series employees have been divided into two main groups, namely, "regular" and "casual". Regular Employees include those employed full-time on a permanent continuous basis, regardless of whether their earnings are based on an annual salary, or monthly, weekly, daily or hourly rates. Casual employees, on the other hand, include those who are employed on a seasonal, emergency, or part-time basis, where the duration of employment is limited and continuity is therefore lacking. This differs from the federal government employment report where persons employed on a seasonal basis are included in "salaried" employment totals if such employment is based on an annual salary rate. Likewise persons employed part-time are also included with the "Salaried" statistics if the employment is based on an annual salary rate. Prevailing rate employees who are employed seasonally or part-time are included in the "prevailing rate" figures in the federal government report.

Classification of these statistics by function permitting comparison between federal and provincial employment is discussed further at a later point in this text.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded. The information for departmental services and government enterprises of the provinces of Quebec and British Columbia is not available at the present time.

Tables 3 and 4, which record details of casual employment, indicate considerable fluctuations in the numbers and earnings shown for the Departmental Services. This fluctuation is almost entirely due to changes in the casual staffs employed in highway work in each province.

Functions and activities of government are varied in their nature and are carried out through differing types of organization. For statistical purposes, groupings and classifications of these functions and activities are needed and these do not necessarily follow the organizational divisions in practice in any one government or group of governments. For purposes of useful comparison the statistics presented in this document follow principles evolved at Dominion-Provincial Conferences on Provincial Finance Statistics.

The purpose of this survey of provincial government employment is to:
(1) provide statistics relative to national labour force and national income and expenditure accounts, (2) provide governments with figures which will serve their needs for statistical measurements of employment.

An analysis of departmental or "general fund" services is presented according to function. This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are altered by changes in administrative structure which occur from time to time it is possible to develop a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not affect a function classification it is possible to measure the extent of employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Employment and earnings have been reported for each pay period and, in general, are divided between "casual" and "regular" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals shown for the final pay period and the total earnings for the entire month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of the casual employment figures where the numbers on strength may vary substantially within a single month.

For purposes of this survey it has been necessary to establish two main categories of employees, namely, "regular" and "casual", because of a lack of uniformity in the official classes defined by the several provinces. A description of regular and casual has already been given. Regular employees include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are footnoted in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).

2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
University of Toronto
Royal Conservatory of Music
Lakehead College of Arts, Science and
Technology (Port Arthur)
University of Manitoba
University of Saskatchewan
Regina College
University of Alberta
University of British Columbia
Victoria College.

3. **PROVINCIAL GOVERNMENT ENTERPRISES:** These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or shared-capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently they should be reported separately from general activities in statistical presentations. A list of these enterprises by province follows this text.

Provincial Government Enterprises

Newfoundland: -

Liquor Control Board
Newfoundland Savings Bank
Workmen's Compensation Board
The Jubilee Guilds of Newfoundland
St. John's Housing Corporation
Newfoundland Hardwoods Ltd.
Division of Northern Labrador Affairs

Prince Edward Island :-

Workmen's Compensation Board
Prince Edward Island, Temperance Commission

Provincial Government Enterprises - (Concluded)

Nova Scotia: -

Nova Scotia Liquor Commission
Workmen's Compensation Board
Power Commission

Keltic Lodge, Uniacke House
Land Settlement (Agriculture)

New Brunswick: -

New Brunswick Electric Power Commission
Workmen's Compensation Board
New Brunswick Liquor Control Board

Ontario: -

Workmen's Compensation Board
Liquor Control Board of Ontario
Ontario Savings Office
Ontario Northland Railways

Hydro Electric Power Commission
Ontario Stock Yards
Ontario Food Terminal
Ontario Water Resources Commission

Manitoba: -

Manitoba Liquor Control Board
Manitoba Telephone System
Manitoba Power Commission
Workmen's Compensation Board
Manitoba Hydro-Electric Board

Saskatchewan: -

Saskatchewan Government Airways
Saskatchewan Government Forest Products:
Timber Board
Saskatchewan Government Finance Office
Saskatchewan Government Insurance Office
Saskatchewan Government Liquor Board
Saskatchewan Fur Marketing Service
Saskatchewan Mineral Corporation:
Clay Products Division
Sodium Sulphate Division
Saskatchewan Government Printing Company
Saskatchewan Power Corporation
Saskatchewan Government Telephones
Saskatchewan Transportation Company
Workmen's Compensation Board

Alberta: -

Alberta General Insurance
Alberta Government Telephone
Alberta Liquor Control Board

Alberta Marketing Services Ltd.
Alberta Workmen's Compensation Board
Alberta Government Treasury Branches

PROVINCIAL GOVERNMENT EMPLOYMENT

July - September, 1960

This Report is a companion series to the "Federal Government Employment" which presents details of employment and payrolls of the Government of Canada. The two series give details of federal and provincial government employment and will ultimately be supplemented by a third series covering the municipal government field.

In making comparisons between the federal and provincial government employment series two basic differences should be mentioned. In regard to earnings the provincial series includes, in the amounts shown, all earnings of persons on the payroll of the provincial government including overtime and all types of special payments; whereas, in the federal series, the amounts shown in the main tables of the report include only the basic salary of employees, not including such special items as overtime, isolation pay, and other similar payments. The second major difference relates to the definitions of employees. In the provincial series employees have been divided into two main groups, namely, "regular" and "casual". Regular Employees include those employed full-time on a permanent continuous basis, regardless of whether their earnings are based on an annual salary, or monthly, weekly, daily or hourly rates. Casual employees, on the other hand, include those who are employed on a seasonal, emergency, or part-time basis, where the duration of employment is limited and continuity is therefore lacking. This differs from the federal government employment report where persons employed on a seasonal basis are included in "salaried" employment totals if such employment is based on an annual salary rate. Likewise persons employed part-time are also included with the "Salaried" statistics if the employment is based on an annual salary rate. Prevailing rate employees who are employed seasonally or part-time are included in the "prevailing rate" figures in the federal government report.

Classification of these statistics by function permitting comparison between federal and provincial employment is discussed further at a later point in this text.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded. The information for departmental services and government enterprises of the provinces of Quebec and British Columbia is not available at the present time.

Tables 3 and 4, which record details of casual employment, indicate considerable fluctuations in the numbers and earnings shown for the Departmental Services. This fluctuation is almost entirely due to changes in the casual staffs employed in highway work in each province.

Functions and activities of government are varied in their nature and are carried out through differing types of organization. For statistical purposes, groupings and classifications of these functions and activities are needed and these do not necessarily follow the organizational divisions in practice in any one government or group of governments. For purposes of useful comparison the statistics presented in this document follow principles evolved at Dominion-Provincial Conferences on Provincial Finance Statistics.

The purpose of this survey of provincial government employment is to:
(1) provide statistics relative to national labour force and national income and expenditure accounts, (2) provide governments with figures which will serve their needs for statistical measurements of employment.

An analysis of departmental or "general fund" services is presented according to function. This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time it is possible to develop a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not affect a function classification it is possible to measure the extent of employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Employment and earnings have been reported for each pay period and, in general, are divided between "casual" and "regular" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals shown for the final pay period and the total earnings for the entire month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of the casual employment figures where the numbers on strength may vary substantially within a single month.

For purposes of this survey it has been necessary to establish two main categories of employees, namely, "regular" and "casual", because of a lack of uniformity in the official classes defined by the several provinces. A description of regular and casual has already been given. Regular employees include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are footnoted in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

1. **DEPARTMENTAL SERVICES:** In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).

2. **PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION:** These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
University of Toronto
Royal Conservatory of Music
Lakehead College of Arts, Science and
Technology (Port Arthur)
University of Manitoba
University of Saskatchewan
Regina College
University of Alberta
University of British Columbia
Victoria College.

3. **PROVINCIAL GOVERNMENT ENTERPRISES:** These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or shared-capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently they should be reported separately from general activities in statistical presentations. A list of these enterprises by province follows this text.

Provincial Government Enterprises

Newfoundland: -

Liquor Control Board
Newfoundland Savings Bank
Workmen's Compensation Board
The Jubilee Guilds of Newfoundland
St. John's Housing Corporation
Newfoundland Hardwoods Ltd.
Division of Northern Labrador Affairs

Prince Edward Island :-

Workmen's Compensation Board
Prince Edward Island, Temperance Commission

Provincial Government Enterprises - (Concluded)

Nova Scotia: -

Nova Scotia Liquor Commission
Workmen's Compensation Board
Power Commission

Keltic Lodge, Uniacke House
Land Settlement (Agriculture)

PROVINCIAL GOVERNMENT EMPLOYMENT

October-December, 1960

This Report is a companion series to that dealing with "Federal Employment" which presents details of employment and payrolls of the Government of Canada. The two series give details of federal and provincial government employment and will ultimately be supplemented by a third series covering the municipal government field.

A complete description of the method of collection and the statistics included in this series was given, together with other background detail, in the report for July-September, 1960.

A major change in the definition of employees was adopted in October, 1960. Employees included in these statistics are now divided into two main groups, namely: **SALARY EARNERS** and **WAGE EARNERS**. Salary Earners are employees who are in receipt of a salary based on monthly or annual rates. Wage Earners, on the other hand, are those employees who are in receipt of a wage based on hourly, daily or weekly rates.

For the purpose of this report, Salary Earners include all salaried staff whether employed on a full-time or a part-time basis. Wage Earners are divided into two groups: 1) Wage Earners - Full Time: These are wage earners who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded. The information for departmental services and government enterprises of the provinces of Quebec and British Columbia is not available at the present time.

Employment and earnings have been reported for each pay period and, in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are footnoted in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

Four new tables have been presented in this report. Table 1 combines all employees reported for the months December 1960, September 1960 and December 1959. Table 2 combines gross earnings for the quarters October 1 - December 31, 1960; July 1 - September 30, 1960; October 1 - December 31, 1959 and for the year January 1 - December 31, 1960. Tables 3 and 4 are comparative tables for employees and gross earnings for the fourth quarter 1960 and 1959.

SUMMARY OF DEPARTMENTAL SERVICES, INSTITUTIONS OF HIGHER EDUCATION
AND GOVERNMENT ENTERPRISES

TABLE 1. Number of Employees (1) Reported for the Periods Indicated

	December 31, 1960	September 30, 1960	December 31, 1959
	number		
Departmental services(2)	103,926	111,303	103,339
Institutions of higher education(3)	18,600	16,834	16,582
Government enterprises(2)	44,560	45,365	43,690
Totals(4)	167,086	173,502	163,611

- (1) Numbers employed represent the number of persons on the payroll for the last pay period reported in each month.
(2) Excludes Quebec and British Columbia.
(3) Includes University of British Columbia.
(4) Does not include "casual local roads employees" in the Province of Newfoundland: December 31, 1960, 3,946; September 30, 1960, 1,797; December 31, 1959, 2,471.

TABLE 2. Gross Earnings (1) Reported for Periods Indicated

	October 1 - December 31, 1960	July 1 - September 30, 1960	October 1 - December 31, 1959	Total earnings for the year 1960
	dollars			
Departmental services(2)	89,618,204	94,163,833	83,480,877	349,746,425
Institutions of higher education(3) ..	16,137,860	15,770,443	14,301,399	60,909,617
Government enterprises(2)	51,836,557	52,254,207	48,452,748	197,000,857
Totals(4)	157,592,621(4)	162,188,483(4)	146,235,024(4)	607,656,899(4)

- (1) Earnings are the gross earnings of all persons paid for work done during the month whether they were on strength at the end of the month or not and include retroactive pay, salary adjustments and overtime payments.
(2) Excludes Quebec and British Columbia.
(3) Includes University of British Columbia.
(4) Does not include earnings of "casual local roads employees" in the Province of Newfoundland "departmental services" as follows: October 1 - December 31, 1960, \$180,934; July 1 - September 30, 1960, \$103,147; October 1 - December 31, 1959, \$195,020; January 1 - December 31, 1960, \$332,368.

SYMBOLS

The interpretation of the symbols used in the tables throughout this publication is as follows:

- .. figures not available
- nil or zero

PROVINCIAL GOVERNMENT EMPLOYMENT

January - March, 1961

These statistics form a companion series to that dealing with "Federal Employment" which presents details of employment and payrolls of the Government of Canada. The two give details of federal and provincial government employment and will ultimately be supplemented by a third series covering the municipal government field.

A complete description of the method of collection and the statistics included in this report was given, together with other background detail, in the issue for July - September, 1960. Certain important changes in definition of employees were explained in the report for October - December, 1960.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded. The information for departmental services and government enterprises of the provinces of Quebec and British Columbia is not available at the present time.

Employment and earnings have been reported for each pay period and, in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are footnoted in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

A review of totals shows that employees and gross earnings were considerably lower in the quarter ended March 31, 1961 than in the October - December, 1960 period. This resulted mainly from reduced activity in services which normally employ large numbers of part-time or seasonal wage earners. Highways departments, for example, normally employ numerous persons for sanding, salting and snow removal. Unusually light snowfall especially during January and February of this year caused a greatly lower than normal demand for such employees. Highways departments are included in the Function "Transportation and Communications". Reference to tables 11 and 12 shows that employment of wage earners in that Function dropped from 17,957 in the October - December quarter to 12,283 in the January - March period while earnings of these employees declined from \$9,586,000 to \$7,377,000.

Employment and payroll statistics for the Government of the Yukon Territory will be included for the first time in the April - June, 1961 report.

SUMMARY OF DEPARTMENTAL SERVICES, INSTITUTIONS OF HIGHER EDUCATION
AND GOVERNMENT ENTERPRISES

TABLE 1. Number of Employees(1) Reported at Dates Indicated

	March 31, 1961	December 31, 1960	March 31, 1960
	number		
Departmental services	99,742	103,926	99,204
Institutions of higher education	18,268	18,600	16,588
Government enterprises	42,179	44,560	41,604
Totals(2)	160,189	167,086	157,396

- (1) Numbers employed represent the number of persons on the payroll for the last pay period reported in each month.
(2) Does not include "casual local roads employees" in the Province of Newfoundland "departmental services" as follows:
March 31, 1961, 106; December 31, 1960, 3,964; March 31, 1960, 117.

TABLE 2. Gross Earnings(1) Reported for the Periods Indicated

	January 1 - March 31, 1961	October 1 - December 31, 1960	January 1 - March 31, 1960	Earnings for the fiscal year April 1, 1960 - March 31, 1961
	dollars			
Departmental services	86,398,656	89,618,204	81,270,382	356,708,800
Institutions of higher education	16,167,533	16,137,860	14,171,542	62,905,608
Government enterprises	49,463,603	51,836,557	44,837,711	201,628,624
Totals(2)	152,029,792	157,592,621	140,279,635	621,243,032

- (1) Earnings are the gross earnings of all persons paid for work done during the month whether they were on strength at the end of the month or not and include retroactive pay, salary adjustments and overtime payments.
(2) Does not include earnings of "casual local roads employees" in the Province of Newfoundland "departmental services" as follows: January 1 - March 31, 1961, \$23,753; October 1 - December 31, 1960, \$180,934; January 1 - March 31, 1960, \$32,005; April 1, 1960, - March 31, 1961, \$308,832.

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1961

These statistics form a companion series to that dealing with "Federal Employment" which presents details of employment and payrolls of the Government of Canada. The two give details of federal and provincial government employment and will ultimately be supplemented by a third series covering the municipal government field.

Employment and payroll statistics for the government of the Yukon Territory are included in this report for the first time commencing April, 1961.

A review of data shows that the 178,634 employees reported for June (including the Yukon Territory) represented a 1.1 per cent drop from June 1960 (180,602). This decrease was due to a decline of 2,351 employees in Departmental Services.

In contrast with employment at the end of March (160,189) the June total (178,634) showed a 11.5 per cent increase. This was due mainly to rises in the seasonal and part-time staffs of departments of highways and natural resources.

Earnings (including the Yukon Territory) for the April 1 - June 30, 1961 quarter totalled \$160,227,000; a gain of 7.2 per cent from the April - June, 1960 quarter (\$149,432,000) and 5.4 per cent from the January - March, 1961 quarter (\$152,030,000).

Total earnings of provincial employees in the first half of 1961 amounted to \$312,657,000 (\$312,257,000 excluding the Yukon Territory).

Employees in Departmental Services earned \$178,387,000 or 57.1 per cent of the total while enterprise staffs earned \$101,419,000 or 32.4 per cent and those of Institutions of Higher Education received \$32,851,000 or 10.5 per cent.

A description of the statistics included in this series is given together with other background detail on page 22 of this report.

SUMMARY OF DEPARTMENTAL SERVICES, INSTITUTIONS OF HIGHER EDUCATION
AND GOVERNMENT ENTERPRISES

TABLE 1. Number of Employees(1) Reported at Dates Indicated

	June 30, 1961	March 31, 1961	June 30, 1960
	number		
Departmental services	117,070	99,742	119,397
Institutions of higher education	16,096	18,268	15,548
Government enterprises	45,792	42,179	45,657
Totals(2)	178,958	160,189	180,602

- 1) Numbers employed represent the number of persons on the payroll for the last pay period reported in each month.
2) Does not include "casual local roads employees" in the Province of Newfoundland "departmental services" as follows:
June 30, 1961, 688; March 31, 1961, 106; June 30, 1960, 131.

TABLE 2. Gross Earnings(1) Reported for the Periods Indicated

	April 1 - June 30, 1961	January 1 - March 31, 1961	April 1 - June 30, 1960	Earnings for the period January 1, 1961 - June 30, 1961
	dollars			
Departmental services	91,988,718	86,398,656	86,528,107	178,387,374
Institutions of higher education	16,683,172	16,167,533	14,829,772	32,850,705
Government enterprises	51,955,065	49,463,603	48,073,905	101,418,668
Totals(2)	160,626,955	152,029,792	149,431,784	312,656,747

- 1) Earnings are the gross earnings of all persons paid for work done during the month whether they were on strength at the end of the month or not and include retroactive pay, salary adjustments and overtime payments.
2) Does not include earnings of "casual local roads employees" in the Province of Newfoundland "departmental services" as follows: April 1 - June 30, 1961, \$12,203; January 1 - March 31, 1961, \$23,753; April 1 - June 30, 1960, \$2,196; January 1 - June 30, 1961, \$39,956.

EXPLANATORY NOTES

APRIL - JUNE 1961

This report presents statistics of employment and payrolls of eight provincial governments and the Yukon Territory for the second quarter April 1, 1961 to June 30, 1961. The information for departmental services and government enterprises of the provinces of Quebec and British Columbia is not available at the present time. The first quarterly report published of the statistics was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national income and expenditure accounts, (2) provide governments with figures which will serve their needs for statistical measurements of employment.

An analysis of departmental or "general fund" services is presented according to function. This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time it is possible to develop a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not affect a function classification it is possible to measure the extent of employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).

2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
University of Toronto
Royal Conservatory of Music
Lakehead College of Arts, Science and
Technology (Port Arthur)
University of Manitoba
University of Saskatchewan
Regina College
University of Alberta
University of British Columbia
Victoria College

3. PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or shared-capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most

governments at a certain level. Consequently, they should be reported separately from general activities in statistical presentations. A list of these enterprises by province follows this text.

Provincial Government Enterprises

Newfoundland:-

Liquor Control Board
Newfoundland Savings Bank
Workmen's Compensation Board
The Jubilee Guilds of Newfoundland
St. John's Housing Corporation
Division of Northern Labrador Affairs
Newfoundland Power Commission

Manitoba:-

Manitoba Liquor Control Board
Manitoba Telephone System
Manitoba Power Commission
Workmen's Compensation Board

Saskatchewan:-

Saskatchewan Government Airways
Saskatchewan Government Forest Products:
Timber Board
Saskatchewan Government Finance Office
Saskatchewan Government Insurance Office
Saskatchewan Government Liquor Board
Saskatchewan Fur Marketing Service
Saskatchewan Mineral Corporation:
Clay Products Division
Sodium Sulphate Division
Saskatchewan Government Printing Company
Saskatchewan Power Corporation
Saskatchewan Government Telephones
Saskatchewan Transportation Company
Workmen's Compensation Board

Prince Edward Island:-

Workmen's Compensation Board
Prince Edward Island, Temperance Commission

Nova Scotia:-

Nova Scotia Liquor Commission
Workmen's Compensation Board
Nova Scotia Power Commission
Keltic Lodge
Land Settlement (Agriculture)

New Brunswick:-

New Brunswick Electric Power Commission
Workmen's Compensation Board
New Brunswick Liquor Control Board

Ontario:-

Workmen's Compensation Board
Liquor Control Board of Ontario
Ontario Savings Office
Ontario Northland Transportation Commission
Niagara Falls Bridge Commission
Hydro Electric Power Commission
Ontario Stock Yards
Ontario Food Terminal
Ontario Water Resources Commission

Alberta:-

Alberta Government Telephone
Alberta Liquor Control Board
Alberta Marketing Services Ltd.
Workmen's Compensation Board
Alberta Government Treasury Branches

Yukon Territory:-

Liquor Control Board

Employees included in these statistics are divided into two main groups, namely:

SALARY EARNERS and WAGE EARNERS.

For the purpose of this report, Salary Earners include all salaried staff whether employed on a full-time or a part-time basis. Wage Earners are divided into two groups: 1) Wage Earners - Full Time; These are wage earners who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded.

Employment and earnings have been reported for each pay period and, in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month.

Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are footnoted in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as the General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS EARNINGS: Earnings are the gross earnings of all persons paid for work done during the month whether they were on strength at the end of the month or not and include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JULY - SEPTEMBER 1961

A review of totals indicates that the number and gross earnings of employees were considerably higher during the quarter ended September 30, 1961 than for the April - June 1961 quarter.

This resulted primarily from increased seasonal activities in various functions for the following reasons:

Transportation and Communications - Although there were fewer persons employed at the end of this quarter than the previous one, the total payroll expenditure increased by approximately \$4,000,000. This was due to increased employment for road construction and maintenance during most of the quarter.

Health and Social Welfare - An increase in employees and payroll expenditure which was due primarily to the additional hospital services being provided by various provincial governments and the employment of casual staff as holiday replacements.

There was also a substantial increase in "Recreation and Cultural Services" because of the employment of summer staffs in connection with recreation and parks.

The services which comprise the "Natural Resources and Primary Industries" function also show an increase, chiefly because of the additional requirement for fire-fighters in the forests.

Data for the departmental services and enterprises of Quebec and British Columbia are not available for inclusion in this report.

The 180,968 employees reported for September, 1961 (excluding the Yukon Territory) represented a 4.3 per cent increase over September, 1960 (173,502) and a 1.3 per cent increase over June, 1961 (178,634).

Earnings (excluding the Yukon Territory) for the July 1 - September 30, 1961 quarter totalled \$172,702,000; a gain of 6.5 per cent from the July - September, 1960 quarter (\$162,188,000) and 7.8 per cent from the April - June, 1961 quarter (\$160,227,000). Total earnings of provincial employees for the period January 1 - September 30, 1961 amounted to \$485,707,000 (\$484,959,000 excluding the Yukon Territory). Employees in Departmental Services earned \$280,079,000 or 57.6 per cent of the total while Enterprise staffs earned \$154,716,000 or 31.9 per cent and those of Institutions of Higher Education received \$50,911,000 or 10.5 per cent.

A complete description of the statistics included in this series is given together with other background detail in the Provincial Government Employment report for the April - June 1961 quarter.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as the General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS EARNINGS: Earnings are the gross earnings of all persons paid for work done during the month whether they were on strength at the end of the month or not and include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER - DECEMBER 1961

A review of totals indicates that the number and gross earnings of employees were considerably lower during the quarter ended December 31, 1961 than for the July - September 1961 quarter.

This resulted mainly from reduced activity in the following services which normally employ large numbers of part-time or seasonal wage earners:

Transportation and Communications - Decrease in road construction and below-normal requirements for snow removal.

Recreation and Cultural Services - Seasonal decrease in out-door recreation facilities.

Natural Resources and Primary Industries - Termination of seasonal tree-planting jobs and fighting services.

Data for the departmental services and enterprises of Quebec and British Columbia are not available for inclusion in this report.

The 169,839 employees reported for December, 1961 (excluding the Yukon Territory) represented a 1.6 per cent increase over December, 1960 (167,086) and a 5.9 per cent decrease from September, 1961 (180,412).

Earnings (excluding the Yukon Territory) for the October 1 - December 31, 1961 quarter totalled \$164,040,000; a gain of 4.1 per cent from the October - December, 1960 quarter (\$157,593,000) and 5.0 per cent decrease from the July - September, 1961 quarter (\$172,702,000). Total earnings of provincial employees for the year 1961 amounted to \$650,140,000 (\$648,999,000 excluding the Yukon Territory). Employees in Departmental Services earned \$375,812,000 or 57.8 per cent of the total while Enterprise staffs earned \$205,113,000 or 31.6 per cent and those of Institutions of Higher Education received \$69,215,000 or 10.6 per cent.

A complete description of the statistics included in this series is given together with other background detail in the Provincial Government Employment report for the April - June 1961 quarter.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS EARNINGS: Earnings reported are the gross earnings of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

SUMMARY OF DEPARTMENTAL SERVICES, INSTITUTIONS OF HIGHER EDUCATION
AND GOVERNMENT ENTERPRISES

TABLE 1. Number of Employees(1) Reported at Dates Indicated

	December 31, 1961	September 30, 1961	December 31, 1960
	number		
Departmental services	107,042	119,165	103,926
Institutions of higher education	19,441	16,695	18,600
Government enterprises	43,665	44,896	44,560
Totals(2)	170,148	180,756	167,086

- (1) On payroll for the last pay period reported in each month. Departmental service and Enterprise employment of Quebec and British Columbia not included.
(2) Does not include "casual local roads employees" in "departmental services" of Newfoundland: December 31, 1961, 1,912; September 30, 1961, 1,408; December 31, 1960, 3,946.

TABLE 2. Gross Earnings of Employees(1) Reported for the Periods Indicated

	October 1 - December 31, 1961	July 1 - September 30, 1961	October 1 - December 31, 1960	Total for the year 1961(3)
	dollars			
Departmental services	95,733,187	101,691,628	89,618,204	375,812,189
Institutions of higher education	18,303,183	18,060,834	16,137,860	69,214,722
Government enterprises	50,396,561	53,297,813	51,836,557	205,113,042
Totals(2)	164,432,931	173,050,275	157,592,621	650,139,953

- (1) For all persons paid for work done during the month whether they were on strength at the end of the month or not. Include retroactive pay, salary adjustments and overtime payments. Departmental service and Enterprise payrolls of Quebec and British Columbia not included.
(2) Does not include earnings of "casual local roads employees" in the "departmental services" of Newfoundland: October 1 - December 31, 1961 \$164,334; July 1 - September 30, 1961 \$98,572; October 1 - December 31, 1960 \$180,934; total earnings for the year 1961, \$298,863.
(3) Yukon Territory included from April 1, 1961 only.

The interpretation of the symbols used in the tables throughout this publication is as follows:

- .. figures not available
- nil or zero

PROVINCIAL GOVERNMENT EMPLOYMENT

JANUARY - MARCH 1962

A review of totals indicates that the number and gross earnings of employees were slightly lower during the quarter ended March 31, 1962 than for the October - December 1961 quarter.

Data for the departmental services and enterprises of Quebec and British Columbia are not available for inclusion in this report.

The 165,007 employees reported for March 1962 (excluding the Yukon Territory) represented a 3.1 per cent increase over March 1961 (160,089) and a 2.8 per cent decrease from December 1961 (169,839).

Earnings (excluding the Yukon Territory) for the January 1 - March 31, 1962 quarter totalled \$163,193,000; a gain of 7.3 per cent from the January - March 1961 quarter (\$152,030,000) but a decrease of 0.5 per cent from the October - December 1961 quarter (\$164,040,000). Total earnings of provincial employees (available for inclusion in this report) for the fiscal year April 1, 1961 - March 31, 1962 amounted to \$661,668,000. Employees in Departmental Services earned \$384,254,000 or 58.1 per cent of the total while Enterprise staffs earned \$205,861,000 or 31.1 per cent and those of Institutions of Higher Education received \$71,553,000 or 10.8 per cent.

A complete description of the statistics included in this series is given together with other background detail in the Provincial Government Employment report for the April - June 1961 quarter.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS EARNINGS: Earnings reported are the gross earnings of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

SUMMARY OF DEPARTMENTAL SERVICES, INSTITUTIONS OF HIGHER EDUCATION
AND GOVERNMENT ENTERPRISES

TABLE 1. Number of Employees(1) Reported at Dates Indicated

	March 31, 1962	December 31, 1961	March 31, 1961(3)
	number		
Departmental services	103,660	107,042	99,742
Institutions of higher education	20,063	19,441	18,268
Government enterprises	41,631	43,665	42,179
Totals(2)	165,354	170,148	160,189

- (1) On payroll for the last pay period reported in each month. Departmental service and Enterprise employment of Quebec and British Columbia not included.
 (2) Does not include "casual local roads employees" in "departmental services" of Newfoundland: March 31, 1962, 1,960; December 31, 1961, 1,912; March 31, 1961, 106.
 (3) Yukon Territory included from April 1, 1961 only.

TABLE 2. Gross Earnings of Employees(1) Reported for the Periods Indicated

	January 1 - March 31, 1962	October 1 - December 31, 1961	January 1 - March 31, 1961(3)	Earnings for the fiscal year April 1, 1961 - March 31, 1962
	dollars			
Departmental services	94,840,214	95,733,187	86,398,656	384,253,747
Institutions of higher education	18,505,321	18,303,183	16,167,533	71,552,510
Government enterprises	50,211,889	50,396,561	49,463,603	205,861,328
Totals(2)	163,557,424	164,432,931	152,029,792	661,667,585

- (1) For all persons paid for work done during the month whether they were on strength at the end of the month or not. Include retroactive pay, salary adjustments and overtime payments. Departmental service and Enterprise payrolls of Quebec and British Columbia not included.
 (2) Does not include earnings of "casual local roads employees" in the "departmental services" of Newfoundland: January 1 - March 31, 1962, \$256,007; October 1 - December 31, 1961, \$164,334; January 1 - March 31, 1961, \$23,753; April 1, 1961 - March 31, 1962, \$531,116.
 (3) Yukon Territory included from April 1, 1961 only.

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1962

A review of totals indicates that the number and gross earnings of employees were considerably higher during the quarter ended June 30, 1962 than for the January - March 1962 quarter. This resulted primarily from increased seasonal activities in the "Transportation and Communications" and "Natural Resources" functions.

Data for the Departmental Services, Government Enterprises and Workmen's Compensation Boards of Quebec and British Columbia are not available for inclusion in this report.

The 178,209 employees reported for June 1962 represented a 0.4 per cent decrease from June 1961 (178,958) and a 7.8 per cent increase over March 1962 (165,354).

Earnings of employees for the April 1 - June 30, 1962 quarter totalled \$168,226,000; a gain of 4.7 per cent from the April - June 1961 quarter (\$160,627,000) and a gain of 2.9 per cent from the January - March 1962 quarter (\$163,557,000). Total earnings of provincial employees (available for inclusion in this report) for the period January 1 - June 30, 1962 amounted to \$331,783,000. Employees in Departmental Services earned \$193,204,000 or 58.2 per cent of the total while staff of Institutions of Higher Education received \$36,929,000 or 11.1 per cent. Those in Enterprises earned \$97,292,000 or 29.3 per cent and of the Workmen's Compensation Boards received \$4,358,000 or 1.3 per cent.

Employees (and their earnings) of Government Enterprises of the Northwest Territories are now included in this series for the first time having commenced reporting in April, 1962.

A description of the statistics included in this series is given together with the background detail on page 22 of this report.

Data for certain Alberta government departments was not received in time for this report. The total staff of these departments for March 1962 was 9389 employees whose earnings amounted to \$10,414,932 in the January - March 1962 quarter. These figures have been included in this report. It is not felt that any significant change will be made when the revised data become available.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS EARNINGS: Earnings reported are the gross earnings of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

SYMBOLS

The interpretation of the symbols used in the tables throughout this publication is as follows:

- .. figures not available.
- nil or zero.
- P Preliminary, subject to revision.

EXPLANATORY NOTES

APRIL - JUNE 1962

This report presents statistics of employment and payrolls of eight provincial governments and the Yukon and Northwest Territories for the second quarter (April 1 to June 30, 1962). The information for departmental services and government enterprises of the provinces of Quebec and British Columbia is not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national income and expenditure accounts, (2) provide government with figures which will serve their needs for statistical measurements of employment.

An analysis of departmental or "general fund" services is presented according to function. This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time it is possible to develop a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not affect a function classification it is possible to measure the extent of employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditure on employment and total expenditures.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).

2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
University of Toronto
 Royal Conservatory of Music
Lakehead College of Arts, Science and
 Technology (Port Arthur)
University of Manitoba
University of Saskatchewan
 Regina College
University of Alberta
University of British Columbia
 Victoria College

3. PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or shared-capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently, they should be reported separately from general activities in statistical presentations. A list of these enterprises by province follows this text.

Provincial Government Enterprises

Newfoundland:

Liquor Control Board
The Jubilee Guilds of Newfoundland
St. John's Housing Corporation
Division of Northern Labrador Affairs
Newfoundland Power Commission

Manitoba:

Manitoba Liquor Control Board
Manitoba Telephone System
Manitoba Power Commission

Saskatchewan:

Saskatchewan Government Airways
Saskatchewan Government Forest Products:
Timber Board
Saskatchewan Government Finance Office
Saskatchewan Government Insurance Office
Saskatchewan Government Liquor Board
Saskatchewan Fur Marketing Service
Saskatchewan Mineral Corporation:
Clay Products Division
Sodium Sulphate Division
Saskatchewan Government Printing Company
Saskatchewan Power Corporation
Saskatchewan Government Telephones
Saskatchewan Transportation Company

Prince Edward Island:

Prince Edward Island, Temperance Commission

Nova Scotia:

Nova Scotia Liquor Commission
Nova Scotia Power Commission
Keltic Lodge
Land Settlement (Agriculture)

New Brunswick:

New Brunswick Electric Power Commission
New Brunswick Liquor Control Board

Ontario:

Liquor Control Board of Ontario
Ontario Savings Office
Ontario Northland Transportation Commission
Niagara Falls Bridge Commission
Hydro Electric Power Commission
Ontario Stock Yards
Ontario Food Terminal
Ontario Water Resources Commission

Alberta:

Alberta Government Telephone
Alberta Liquor Control Board
Alberta Marketing Services Ltd.
Alberta Government Treasury Branches

Yukon and Northwest Territories:

Liquor Control Board

4. WORKMEN'S COMPENSATION BOARDS: For the first time separate data for the Workmen's Compensation Board of each province (for which data is available) is shown. This data was formerly included with the "Provincial Government Enterprises".

Employees included in these statistics are divided into two main groups, namely:

SALARY EARNERS AND WAGE EARNERS

For the purpose of this report, Salary Earners include all salaried staff whether employed on full-time or a part-time basis. Wage Earners are divided into two groups: 1) Wage Earners - Full time; These are wage earners who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded.

Employment and earnings have been reported for each pay period, and in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month.

Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are footnoted in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

- Nil or zero.
- r Revised figures.

PROVINCIAL GOVERNMENT EMPLOYMENT

JULY - SEPTEMBER 1962

A review of totals indicates that the number and gross earnings of employees were considerably higher during the quarter ended September 30, 1962 than for the April - June 1962 quarter. This resulted primarily from increased seasonal activities in the "Transportation and Communications" and "Natural Resources" functions, and a general increase in Government Enterprises.

Data for the Departmental Services, Government Enterprises and Workmen's Compensation Boards of Quebec and British Columbia are not available for inclusion in this report.

The 183,752 employees reported for September 1962 represented a 1.7 per cent increase over September 1961 (180,756) and a 2.5 per cent increase over June 1962 (179,274).

Earnings of employees for the July 1 - September 30, 1962 quarter totalled \$83,035,000; a gain of 5.8 per cent from the July - September 1961 quarter (\$78,173,050,000) and a gain of 9.4 per cent from the April - June 1962 quarter (\$167,000,000). Total earnings of provincial employees (available for inclusion in this report) for the period January 1 - September 30, 1962 amounted to \$513,965,000. Employees in Departmental Services earned \$298,848,000 or 58.2 per cent of the total while staff of Institutions of Higher Education received \$57,186,000 or 11.1 per cent. Those in Enterprises earned \$151,326,000 or 29.4 per cent and the Workmen's Compensation Board staffs received \$6,605,000 or 1.3 per cent.

Payroll in the July - September 1962 quarter was greater in all eight reporting provinces than in either the April-June 1962 or the July-September 1961 period. Employment rose in the departmental services of Newfoundland because of increased highways work, of Ontario due to forest service requirements and of Alberta because of increases in several departments. The departmental services of Prince Edward Island, Nova Scotia and New Brunswick had fewer employees mainly because their highways departments had fewer wage earners. The Universities of Saskatchewan and Alberta had substantially larger staffs, a reflection of their expanding educational facilities.

TOTAL PROVINCIAL GOVERNMENT EMPLOYMENT AND PAYROLLS

PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER - DECEMBER 1962

A review indicates that the number of persons employed at December 31, 1962 were down from September 30 but slightly higher than at December 31, 1961. Earnings of these employees were also lower than in the July - September 1962 quarter but substantially higher than in the final quarter of 1961. These changes resulted from the usual seasonal decline in functions subject to curtailment in the fall of each year and showed the effect of a substantial number of pay increases during 1962 by several provinces.

Data for the Departmental Services, Government Enterprises and Workmen's Compensation Boards of Quebec and British Columbia are not available for inclusion in this report.

The 172,469 employees reported for December 1962 represented a 1.4 per cent increase over December 1961 (170,148) and a 6.1 per cent decrease over September 1962 (183,752).

Earnings of employees for the October 1 - December 31, 1962 quarter totalled \$179,219,000., a gain of 9.0 per cent from the October - December 1961 quarter (\$164,433,000) and a decrease of 2.1 per cent from July - September 1962 quarter (\$183,035,000). Total earnings of provincial employees (available for inclusion in this report) for the year 1962 amounted to \$693,444,000. Employees in Departmental services earned \$400,851,000 or 57.8 per cent of the total while staff of Institutions of Higher Education received \$77,899,000 or 11.2 per cent. Those in Enterprises earned \$205,875,000 or 29.7 per cent and the Workmen's Compensation Board staffs received \$8,819,000 or 1.3 per cent.

PROVINCIAL GOVERNMENT EMPLOYMENT

JANUARY - MARCH 1963

The number of persons employed by the reporting provincial governments (including their agencies and enterprises) at March 31, 1963 was down 2,083 or 1.2 per cent from December 31, 1962 but higher by 5,032 or 3.0 per cent than at March 31, 1962. Earnings of these employees were \$5.5 million or 3.1 per cent lower than in the October - December 1962 quarter but \$9.5 million or 5.8 per cent higher than in the first quarter of 1962.

Data for the Departmental Services, Enterprises and Workmen's Compensation Boards of Quebec and British Columbia are not available for inclusion in this report.

The major declines in payroll as compared with the October - December quarter occurred in enterprises of the provinces of Ontario and Saskatchewan. The Ontario drop was largely due to a very large \$1.6 million retroactive pay adjustment which was made in October, 1962. The Saskatchewan decline is attributable to a substantial reduction in average enterprise employment between the two quarters which resulted in a \$1.3 million lower payroll. As usual seasonal factors caused reduced employment and payroll in departmental services which suffer curtailment during the winter months. In Ontario, payroll associated with the Health & Social Welfare functions continued to rise and showed a gain of \$0.5 million in the quarter. Seasonal winter maintenance of highways resulted in a \$1.0 million increase in Ontario for "transportation and communications".

Total earnings of provincial employees (available for inclusion in this report) for the fiscal year April 1, 1962 - March 31, 1963 amounted to \$702,286,000 an increase of \$40,618,000 or 6.1 per cent over the previous fiscal year. Employees in Departmental Services earned \$406,304,000 or 57.8 per cent of the total while staff of Institutions of Higher Education received \$80,015,000 or 11.4 per cent. Those in Enterprises earned \$207,005,000 or 29.5 per cent and the Workmen's Compensation Board staffs received \$8,962,000 or 1.3 per cent.

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1963

The number and gross earnings of employees were considerably higher during the quarter ended June 30, 1963 than the January - March 1963 quarter. This resulted primarily from (1) increased seasonal activities in the "Transportation and Communications" and "Natural Resources" functions and (2) enterprise gains of 8.2 p.c. in staff and 9.3 p.c. in payroll.

Data for Departmental Services, Government Enterprises and Workmen's Compensation Boards of Quebec and British Columbia are not available for inclusion in this report.

The 187,698 employees reported for June 1963 represented a 4.7 per cent increase over June 1962 (179,274) and a 10.2 per cent increase over March 1963 (170,386).

Earnings of employees for the April 1 - June 30, 1963 quarter totalled \$183,53,000, a gain of 9.4 per cent from the April - June 1962 quarter (\$167,633,000) and of 5.9 per cent from January - March 1963 (\$173,056,000). Payrolls associated with the Health and Social Welfare functions continued to rise. This was especially noticeable in Ontario where the increase was \$0.5 million in the quarter.

Total earnings of provincial employees (available for inclusion in this report) for the period January 1 - June 30, 1963 amounted to \$356,409,000. Employees in Departmental Services earned \$206,015,000 or 57.8 per cent of the total while staff of Institutions of Higher Education received \$41,430,000 or 11.6 per cent. Those in Enterprises earned \$104,335,000 or 29.3 per cent and the Workmen's Compensation Board staffs received \$4,629,000 or 1.3 per cent.

A description of the statistics included in this series is given together with the background detail on page 22 of this report.

TOTAL PROVINCIAL GOVERNMENT EMPLOYMENT AND PAYROLLS

TABLE 1. Summary of Employees and Gross Earnings(1)

EXPLANATORY NOTES

APRIL - JUNE 1963

General

This report contains statistics of employment and payrolls for eight provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises of Quebec and British Columbia is not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national income and expenditure accounts, (2) provide government with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose or "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Coverage

Data in the report consist of four major groups.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).

2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
Lakehead College of Arts, Science and Technology
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education
Royal Conservatory of Music
Students Administration Council
University Press
University of Manitoba
University of Saskatchewan, including:
Regina College
University of Alberta, including:
University of Alberta Hospital
University of British Columbia, including:
Victoria College

3. PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or share capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently, they are reported separately from general fund activities for statistical presentation. A list of these enterprises by province follows:

Provincial Government Enterprises

Newfoundland:

Division of Northern Labrador Affairs
Liquor Control Board
Newfoundland Fibreply Ltd.
Newfoundland Power Commission

Manitoba - (Continued):

Manitoba Hydro
Manitoba Liquor Control Board
Manitoba Telephone System
Manitoba Water Supply Board

Prince Edward Island:

Prince Edward Island Industrial Corporation
Prince Edward Island Liquor Control Commission

Saskatchewan:

Saskair (formerly Sask. Gov't. Airways)
Saskatchewan Fur Marketing Service
Saskatchewan Government Forest Products:
Timber Division
Saskatchewan Government Insurance Office
Saskatchewan Government Liquor Board
Saskatchewan Government Printing Company
Saskatchewan Government Telephones
Saskatchewan Government Transportation
Company
Saskatchewan Guarantee and Fidelity
Company Ltd.
Saskatchewan Mineral Corporation:
Clay Products Division
Sodium Sulphate Division
Saskatchewan Power Corporation

Nova Scotia:

Canada Electric Company Ltd.
Halifax Dartmouth Bridge Commission
Industrial Estates Ltd., including:
Springhill Development Corporation
Keltic Lodge
Nova Scotia Development Commission
Nova Scotia Liquor Commission
Nova Scotia Power Commission

New Brunswick:

New Brunswick Electric Power Commission
New Brunswick Liquor Control Commission

Alberta:

Alberta Government Telephones
Alberta Government Treasury Branches
Alberta Industrial Corporation
Alberta Liquor Control Board
Alberta Marketing Service Ltd.
Bow River Development
St. Mary and Milk Rivers Development

Ontario:

Hydro Electric Power Commission of Ontario
Liquor Control Board of Ontario
Niagara Bridge Commission
Ontario Food Terminal Board
Ontario Northland Transportation Commission,
including: Star Transfer Ltd.
Ontario Savings Office
Ontario Stock Yards Board

Yukon Territory:

Liquor Control Board

Manitoba:

Manitoba Agricultural Credit Corporation
Manitoba Development Fund
Manitoba Farm Loans Association

Northwest Territories:

Liquor System

4. WORKMEN'S COMPENSATION BOARDS: Separate data for the Workmen's Compensation Board of each province for which data is available) is shown. Prior to April 1962 this data was included with "Provincial Government Enterprises".

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. For the purpose of this report, Salary Earners include all monthly or annually rated staff whether employed on a full-time or a part-time basis. Wage earners are divided into two groups: 1) Wage Earners - Full-Time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded.

Employment and earnings have been reported for each pay period, and in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

PROVINCIAL GOVERNMENT EMPLOYMENT

JULY - SEPTEMBER 1963

Statistics for the Province of Quebec have been made available for the first time but have not been included in the tables contained in this report, owing to the fact that data are not available by function and the most recent information currently available relates to August, 1963. The following table indicates the detail presently available for the province.

Month	Departmental Services (1)	Enterprises (2)	Workmen's Compensation Commission	Total
Number of employees				
April 1963	29,715	12,673	750	43,138
May 1963	28,951	13,009	764	42,724
June 1963	29,307	13,184	766	43,257
July 1963	30,036	13,934	771	44,741
August 1963	30,355	14,372	774	45,501
September 1963	13,869
Gross earnings of employees				
thousands of dollars				
April 1963	9,385	5,460	206	15,051
May 1963	9,630	5,737	311(3)	15,678
June 1963	9,805	5,214	200	15,219
July 1963	10,042	5,326	207	15,575
August 1963	10,019	5,633	203	15,855
September 1963	5,644

- (1) Excludes Minimum Wage Commission.
 (2) Excludes Quebec Auto Routes Authority.
 (3) Three Fortnightly pay periods.

Quebec information will continue to be limited to totals for the various services for some time. It is hoped, however, that detail by function will be available in 1964.

Data for the Departmental Services, Provincial Enterprises and the Workmen's Compensation Board of British Columbia are not available for inclusion in this publication.

The total employment at August 31st in all provinces except British Columbia amounted to 239,922. This figure includes employment of the University of British Columbia and Victoria College. Total payroll for the same month amounted to \$81,-924,000. Information for the Province of Quebec will be included in the summary tables, as soon as possible.

The following commentary relates to data contained in the tables of this report and, therefore, excludes any reference to Quebec.

The number and gross earnings of employees were higher during the quarter ended September 30, 1963 than in the April - June 1963 quarter. This resulted primarily from (1) increased seasonal activities in the "Transportation and Communications" and "Natural Resources" functions (2) gains of 5.8 per cent in staff and 10.9 per cent in payrolls of "Institutions of Higher Education".

Information for the Saskatchewan Medical Care Commission has been included in this report for the first time. Data for the April - June 1963 period, which is found in tables one and two, has been revised to include this commission.

The 195,448 employees (ex. Quebec) reported for September 1963 represents a 6. per cent increase over September 1962 (183,752) and a 4.8 per cent increase over June 1963 (186,536).

Earnings of employees for the July - September 1963 quarter totaled \$196,-362,000 (ex. Quebec), a gain of 7.3 per cent over the July - September 1962 quarter (\$183,035,000) and of 6.8 per cent over the April - June 1963 quarter (\$183,876,000). Payrolls associated with the Health and Social Welfare functions continued to rise. This was again especially noticeable in Ontario where the increase was \$0.75 million in the quarter.

Total earnings of provincial employees (available for inclusion in this report for the period January 1 - September 30, 1963 amounted to \$553,096,000. Employees of Departmental Services earned \$321,328,000 or 58.1 per cent of the total, while staff of Institutions of Higher Education received \$65,187,000 or 11.8 per cent. Those in Enterprises earned \$159,616,000 or 28.8 per cent of the total and Workmen's Compensation Board staffs received \$6,965,000 or 1.3 per cent.

Increased payroll reported by enterprises of New Brunswick, Manitoba, Saskatchewan and Alberta was the result of higher average employment in the July - September quarter than in the April - June quarter. Employment at the end of September, however, was only slightly above that at the end of June. Employment in Nova Scotia enterprises on the other hand increased sharply during the six months and outpaced the payroll increase between the two quarters.

The increase of almost 11 per cent in payrolls of Institutions of Higher Education was largely in Ontario, where employment in September was down about 8 per cent (due to great fluctuation in casual employment) while payroll was up 11 per cent. In Alberta employment was up 7 per cent and payrolls 9 per cent while British Columbia Universities employed 29 per cent more staff than in June and paid 11 per cent higher payroll than in the April - June quarter.

TOTAL PROVINCIAL GOVERNMENT EMPLOYMENT AND PAYROLLS

PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER - DECEMBER 1963

Summary data for the Province of Quebec are now available but have not been included in the body of this report because function analyses cannot yet be produced. The following table indicates the detail presently available for the province.

1963	Departmental Services(1)	Enterprises(2)	Workmen's Compensation Commission	Total
Number of employees at end of month				
May 1 - June 30	29,307	13,184	766	43,257
July 1 - September 30	28,757	13,869	780	43,406
October 1 - November 30	28,914	13,957	777	43,648
December 1 - December 31	29,074	13,035	791	42,900
December 1 - December 31	28,926	12,285	797	42,008
Gross earnings of employees				
thousands of dollars				
May 1 - June 30	28,820	16,411	717	45,948
July 1 - September 30	29,911	16,603	616	47,130
October 1 - November 30	9,819	8,292(3)	205	18,316
December 1 - December 31	10,097	5,432	312	15,841
December 1 - December 31	10,145	5,376	213	15,734
May 1 to December 31	88,792	52,114	2,063	142,969

- 1 Excludes Minimum Wage Commission.
- 2 Quebec Auto Routes Authority included since October.
- 3 Three pay periods in November.

Quebec information will continue to be limited to totals for the various services for some time. It is hoped, however, that detail by function will be available in 1964.

Data for the Departmental Services, Enterprises and Workmen's Compensation of British Columbia are not available for inclusion in this publication but the institutions of Higher Education are included.

The following commentary relates to data contained in the tables of this report and therefore, excludes any reference to Quebec.

The number and gross earnings of employees were lower during the quarter ended December 31, 1963 than in the July-September 1963 quarter. This resulted primarily from (1) decreased seasonal activities in the "Transportation and Communication" and "Natural Resources" functions (2) decreases of 3.1 per cent in staff and 1.1 per cent in payrolls of "Government Enterprises".

The 182,657 employees reported for December 1963 represents a 5.9 per cent increase over December 1962 (172,469) and a 6.5 per cent decrease from September 1962 (195,448).

Earnings of employees for the October-December 1963 quarter totalled \$193,842,000 a gain of 8.6 per cent over the October-December 1962 quarter (\$178,562,000) but a decrease of 1.3 per cent from the July-September 1963 quarter (\$196,362,000). Payrolls associated with the Health and Social Welfare functions continued to rise in Ontario where the increase was \$1.08 million in the quarter.

Total earnings of provincial employees (available for inclusion in this report) for the year 1963 amounted to \$746,938,000. Employees in Departmental Services earned \$434,781,000 or 58.2 per cent of the total, while staff of Institutions of Higher Education received \$88,605,000 or 11.9 per cent. Those in Enterprises earned \$214,267,000 or 28.7 per cent of the total and Workmen's Compensation Board staffs received \$9,285,000 or 1.2 per cent.

TOTAL PROVINCIAL GOVERNMENT EMPLOYMENT AND PAYROLLS

PROVINCIAL GOVERNMENT EMPLOYMENT

JANUARY - MARCH 1964

Summary data for the Province of Quebec are now available but have not been included in the body of this report because function analyses cannot yet be produced. The following table indicates the detail presently available for the province.

	Departmental services	Enterprises	Workmen's compensation commission	Total
Number of employees at end of month				
963 - October	29,321	13,957	777	44,055
November ...	29,485	13,035	791	43,311
December ...	29,336	12,285	797	42,418
964 - January	29,835	11,734	804	42,373
February ...	30,046	11,993	824	42,863
March	30,136	12,207	846	43,189
Gross earnings of employees				
thousands of dollars				
963 - October	9,973	8,292(1)	205	18,470
November ...	10,255	5,432	312	15,999
December ...	10,304	5,376	213	15,893
964 - January	10,414	3,974	213	14,601
February ...	10,497	4,806	218	15,521
March	10,706	4,814	224	15,744

1) Three pay periods in October 1963.

Quebec information will continue to be limited to totals for the various services for some time. It is hoped, however, that detail by function will be available later in 1964.

Data for the Departmental Services, Enterprises and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication but the Institutions of Higher Education are included.

The following commentary relates to data contained in the main tables of this report and, therefore, excludes reference to Quebec.

The number and gross earnings of employees were lower during the quarter ended March 31, 1964 than in the October-December 1963 quarter. This resulted primarily from (1) further decrease in seasonal activities in the "Transportation and Communication" and "Natural Resources" functions (2) decreases of 3.6 per cent in staff and 1.1 per cent in payrolls of "Government Enterprises".

The 179,688 employees reported for March 1964 represents a 5.5 per cent increase over March 1963 (170,386) and a 1.6 per cent decrease from December 1964 (182,657).

Earnings of employees for the January-March 1964 quarter totalled \$189,086,000 a gain of 9.3 per cent over January-March 1963 (\$173,056,000) but a decrease of 2.5 per cent from the October-December 1963 quarter (\$193,842,000). Payrolls associated with the Health and Social Welfare functions in Ontario decreased by \$1.36 million in the quarter. This decrease occurred because the December 1963 payroll was considerably higher than normal due to the inclusion of pay increases which dated back, in some cases, to September 1962.

Total earnings of provincial employees (available for inclusion in this report) for the fiscal year April 1, 1963 - March 31, 1964 amounted to \$762,968,000. Employees in Departmental Services earned \$444,028,000 or 58.2 per cent of the total, while staff of Institutions of Higher Education received \$91,444,000 or 12.0 per cent. Those in Enterprises earned \$218,078,000 or 28.6 per cent of the total and Workmen's Compensation Board staffs received \$9,418,000 or 1.2 per cent.

TOTAL PROVINCIAL GOVERNMENT EMPLOYMENT AND PAYROLLS

TABLE 1. Summary of Employees and Gross Earnings(1)

	March 31, 1964	December 31, 1963	March 31, 1963	January 1 - March 31, 1964	October 1 - December 31, 1963	January 1 - March 31, 1963	Earnings for the fiscal year April 1, 1963 - March 31, 1964

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1964

The number and gross earnings of employees were considerably higher during the quarter ended June 30, 1964 than the January - March 1964 quarter. This resulted primarily from (1) increased seasonal activities in the "Transportation and Communications" and "Natural Resources" functions (2) higher payrolls associated with the Health and Welfare function and (3) Enterprises which reported gains of 10.1 p.c. in staff and 5.8 p.c. in payroll.

Data for Departmental Services, Government Enterprises and Workmen's Compensation Boards of Quebec and British Columbia are not available for inclusion in this report.

The 197,934 employees reported for June 1964 represents a 6.2 per cent increase over June 1963 (186,308) and a 10.2 increase from March 1964 (179,688). While employment at the end of June was 10.2 p.c. higher than at the end of March, average employment during the April - June quarter was only 3.9 p.c. higher than in the January - March quarter.

Earnings of employees for the April - June 1964 quarter totalled \$200,307,000 a gain of 8.9 per cent over April - June 1963 (\$183,876,000) and of 5.9 per cent from January - March 1964 (\$189,086,000).

Total earnings of provincial employees (available for inclusion in this report) for the period January 1 - June 30, 1964 amounted to \$389,393,000. Employees in Departmental Services earned \$225,866,000 or 58.0 per cent of the total while staff of Institutions of Higher Education received \$48,210,000 or 12.4 per cent. Those of Enterprises earned \$110,415,000 or 28.6 per cent and Workmen's Compensation Board staffs received \$4,902,000 or 1.3 per cent.

EXPLANATORY NOTES

APRIL - JUNE 1964

General

This report contains statistics of employment and payrolls for eight provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises of Quebec and British Columbia is not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national income and expenditure accounts, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose or "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Coverage

Data in the report consist of four major groups.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).

2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
Nova Scotia Technical College
University of New Brunswick
Lakehead College of Arts, Science and Technology
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education
Royal Conservatory of Music

University of Toronto, including - Concluded:
Students Administration Council
University Press
Ryerson Polytechnical Institute
University of Manitoba
University of Saskatchewan, including:
Regina College
University of Alberta, including:
University of Alberta Hospital
University of British Columbia, including:
Victoria College

3. PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or share capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently, they are reported separately from general fund activities for statistical presentation. A list of these enterprises by province follows:

Provincial Government Enterprises

Newfoundland:

Division of Northern Labrador Affairs
Liquor Control Board
Newfoundland Fibreply Ltd.
Newfoundland Power Commission
St. John's Housing Corp.

Manitoba - Concluded:

Manitoba Hydro
Manitoba Liquor Control Board
Manitoba Telephone System
Manitoba Water Supply Board

Prince Edward Island:

Prince Edward Island Industrial Corporation
Prince Edward Island Liquor Control Commission

Saskatchewan:

Saskair (formerly Sask. Gov't. Airways)
Saskatchewan Fur Marketing Service
Saskatchewan Government Forest Products:
Timber Division
Saskatchewan Government Insurance Office
Saskatchewan Government Liquor Board
Saskatchewan Government Printing Company
Saskatchewan Government Telephones
Saskatchewan Government Transportation
Company
Saskatchewan Guarantee and Fidelity
Company Ltd.
Saskatchewan Mineral Corporation:
Clay Products Division
Sodium Sulphate Division
Saskatchewan Power Corporation
Saskatchewan Economic Development Corp.

Nova Scotia:

Halifax Dartmouth Bridge Commission
Industrial Estates Ltd., including:
Springhill Development Corporation
Keltic Lodge
Nova Scotia Development Commission
Nova Scotia Liquor Commission
Nova Scotia Power Commission

New Brunswick:

New Brunswick Electric Power Commission
New Brunswick Liquor Control Commission
New Brunswick Development Corporation

Alberta:

Alberta Government Telephones
Alberta Government Treasury Branches
Alberta Industrial Corporation
Alberta Liquor Control Board
Alberta Marketing Service Ltd.
Bow River Development
St. Mary and Milk Rivers Development

Ontario:

Hydro Electric Power Commission of Ontario
Liquor Control Board of Ontario
Niagara Bridge Commission
Ontario Food Terminal Board
Ontario Northland Transportation Commission,
including: Star Transfer Ltd.
Ontario Savings Office
Ontario Stock Yards Board

Yukon Territory:

Liquor Control Board

Manitoba:

Manitoba Agricultural Credit Corporation
Manitoba Development Fund
Manitoba Farm Loans Association

Northwest Territories:

Liquor System

4. WORKMEN'S COMPENSATION BOARDS: Separate data for the Workmen's Compensation Board of each province for which data is available) is shown. Prior to April 1962 this data was included with "Provincial Government Enterprises".

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. For the purpose of this report, Salary Earners include all monthly or annually rated staff whether employed on a full-time or a part-time basis. Wage earners are divided into two groups: 1) Wage Earners - Full-Time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded.

Employment and earnings have been reported for each pay period, and in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS EARNINGS: Earnings reported are the gross earnings of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JULY - SEPTEMBER 1964

Summary data for the Province of Quebec, are available but have not been included in the body of this report because function analyses cannot yet be produced. The following table indicates the detail presently available for the province.

1964	Departmental Services	Enterprises	Workmen's Compensation Board	Total
Number of employees at end of month				
April	31,941	12,585	691	45,217
May	33,779	13,632	703	48,114
June	35,873	14,481	714	51,068
July	37,969	16,285	718	54,972
August	39,270	15,347	720	55,337
September	37,568	15,821	720	54,109
Gross payrolls				
thousands of dollars				
April	10,125	5,826	202	16,153
May	10,585	5,510	345	16,440
June	11,216	5,990	210	17,416
April 1 - June 30	31,926	17,326	757	50,009
July	11,084	8,238(1)	210	19,532
August	11,204	6,665	208	18,077
September	11,202	8,343(1)	209	19,754
July 1 - September 30	33,490	23,246	627	57,363
Totals	65,416	40,572	1,384	107,372

(1) Includes five weekly pay periods for Quebec Hydro.

Data for the Departmental Services, Enterprises and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication but the Institutions of Higher Education are included.

The following commentary relates to data contained in the tables of this report and therefore, excludes any reference to Quebec.

The gross earnings of employees were 9.3 p.c. higher during the quarter ended September 30, 1964 than in the April - June 1964 quarter. This was due primarily to increased seasonal activities in the "Transportation and Communications" and "Natural Resources" functions.

In spite of higher payrolls the number of employees remained almost the same with an increase of only 0.5 per cent. This was because most of the additional staff hired for seasonal activities was released before September 30, 1964.

The 198,827 employees reported for September 1964 was 1.7 per cent over September 1963 (195,448) and 0.5 per cent higher than in June 1964 (197,934).

Earnings of employees for the July - September 1964 quarter totalled \$218,992,000 a gain of 11.5 per cent over July - September 1963 (\$196,362,000) and of 9.3 per cent over April - June 1964 (\$200,307,000).

Total earnings of provincial employees (available for inclusion in this report) for the period January 1 - September 30, 1964 amounted to \$608,385,000. Employees in Departmental Services earned \$352,008,000 or 57.9 per cent of the total while those of Institutions of Higher Education received \$77,441,000 or 12.7 per cent. Staff of Enterprises earned \$171,557,000 or 28.2 per cent and those of Workmen's Compensation Board received \$7,379,000 or 1.2 per cent.

This report includes data on staff and payroll of the Saskatchewan University Hospital which was not included in previous issues.

SYMBOLS

The interpretation of the symbols used in the tables throughout this publication is as follows:

.. Figures not available.

- Nil or zero.

PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER - DECEMBER 1964

Summary data for the Province of Quebec, are available but have not been included in the body of this report because function analyses cannot yet be produced. The figures for Departmental Services have been revised from April to September. The following table indicates the detail presently available for the province.

	Departmental (services)	Enterprises	Workmen's compensation board	Total
Number of employees at end of the month				
April	39,588	12,585	691	52,864
May	43,652	13,632	703	57,987
June	49,921	14,481	714	65,116
July	51,584	16,285	718	68,587
August	54,998	15,347	720	71,065
September	51,779	15,765	720	68,264
October	52,179	15,106	730	68,015
November	47,631	14,110	734	62,475
December	47,431	10,279(2)	736	58,446
Gross payrolls				
thousands of dollars				
April	11,751	5,826	202	17,779
May	12,069	5,510	345	17,924
June	14,128	5,990	210	20,328
July	13,121	8,238(1)	210	21,569
August	13,642	6,665	208	20,515
September	12,967	8,323(1)	209	21,499
October	13,042	7,349	318	20,709
November	12,365	6,709	221	19,295
December	16,443(3)	5,431(2)	220	22,094

- (1) Includes five weekly pay periods for Quebec Hydro.
 (2) Employees of the Regie des Alcools on strike.
 (3) Three pay periods.

Data for the Departmental Services, Enterprises and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication but the Institutions of Higher Education are included.

The following commentary relates to data contained in the tables of this report and therefore, excludes any reference to Quebec.

The gross payrolls of employees were 1.5 p.c. lower during the quarter ended December 31, 1964 than in the July-September 1964 quarter. This was due primarily to decreased seasonal activities in the "Transportation and Communications" and "Natural Resources" functions.

The 192,409 employees reported for December 1964 was 5.3 per cent over December 1963 (182,657) and 3.2 per cent lower than in September 1964 (198,827).

Payrolls of employees for the October-December 1964 quarter totalled \$215.7 million a gain of 11.3 per cent over October-December 1963 \$193.8 million and a 1.5 per cent decrease from July-September 1964 \$219.0 million.

Total gross payrolls of provincial employees (available for inclusion in this report) for the calendar year 1964 amounted to \$824.0 million. Payrolls for employees in the Departmental Services were \$475.9 million or 57.8 per cent of the total while those of the Institutions of Higher Education received \$107.0 million or 13.0 per cent. The staff of Provincial Government Enterprises received 28.0 per cent of the total payroll or \$231.1 million and the Workmen's Compensation Board Staffs received \$10.0 million or 1.2 per cent. Total gross payrolls include retroactive pay, salary, adjustments, and overtime payments.

SYMBOLS

The interpretation of the symbols used in the tables throughout this publication is as follows:

.. Figures not available.

- Nil or zero

TOTAL PROVINCIAL GOVERNMENT EMPLOYMENT AND PAYROLLS

(1) Includes five weekly pay periods for Quebec Hydro.

(2) Employees of the Régie des Alcools on strike.

(3) Three pay periods.

(4) Employees of the Régie des Alcools paid for only 10 days.

(5) Employees of the Régie des Alcools received \$1,152,458 in pay adjustments.

Data for the Departmental Services, Enterprises and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication but the Institutions of Higher Education are included.

The following commentary relates to data contained in the tables of this report and therefore, excludes any reference to Quebec.

The 190,238 employees reported for March 1965 was 5.9 per cent over March 1964 (179,688) and 1.1 per cent lower than in December 1964 (192,409).

Payrolls of employees for the January-March 1965 quarter totalled \$209.7 million a gain of 10.9 per cent over January-March 1964 \$189.1 million and a 2.8 per cent decrease from October-December 1964 \$215.6 million.

Total gross payrolls of provincial employees (available for inclusion in this report) for the fiscal year April 1, 1964 - March 31, 1965 amounted to \$844.6 million. Payrolls for employees in the Departmental Services were \$486.3 million or 7.6 per cent of the total while those of the Institutions of Higher Education received \$112.6 million or 13.3 per cent. The staff of Provincial Government enterprises received 27.9 per cent of the total payroll or \$235.5 million and the workmen's Compensation staffs received \$10.1 million or 1.2 per cent. Total gross payrolls include retroactive pay, salary, adjustments, and overtime payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1965

The number and gross payrolls of employees were considerably higher during the quarter ended June 30, 1965 than the January-March 1965 quarter. This resulted primarily from (1) increased seasonal activities in the "Transportation and Communications" and "Natural Resources" functions and (2) Enterprises which reported gains of 10.2 p.c. in staff and 5.2 p.c. in payroll.

Data for Departmental Services, Government Enterprises and Workmen's Compensation Boards of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education are included.

The 272,790 employees reported for June 1965 represents 3.7 per cent increase over June 1964 (263,050) and a 9.7 per cent increase from March 1965 (248,687).

Payrolls of employees for the April-June 1965 quarter totalled \$285,657,000 or a gain of 11.4 per cent over April-June 1964 (\$256,337,000) and of 7.4 per cent from January-March 1965 (\$265,883,000).

Total payrolls of provincial employees (available for inclusion in this report) for the period January 1 - June 30, 1965 amounted to \$551,540,000. Employees in Departmental Services earned \$329,242,000 or 59.7 per cent of the total while staff of Institutions of Higher Education received \$59,771,000 or 10.8 per cent. Those of Enterprises earned \$155,199,000 or 28.2 per cent and Workmen's Compensation Board staffs received \$7,328,000 or 1.3 per cent.

DETAILS NOT AVAILABLE

EXPLANATORY NOTES

APRIL - JUNE 1965

General

This report contains statistics of employment and payrolls for nine provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises for British Columbia are not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national income and expenditure accounts, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose or "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures, (functional data for the Province of Quebec is not available at the present time).

Coverage

Data in the report consist of four major groups.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).
2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
Nova Scotia Technical College
University of New Brunswick
Lakehead College of Arts, Science and Technology
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education
Royal Conservatory of Music
Students Administration Council

University of Toronto, including - Concluded:
University Press
Ryerson Polytechnical Institute
University of Manitoba
University of Saskatchewan, including:
Regina College
University of Saskatchewan Hospital
University of Alberta, including:
University of Alberta Hospital
University of British Columbia, including:
Victoria College

3. **PROVINCIAL GOVERNMENT ENTERPRISES:** These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or share capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently, they are reported separately from general fund activities for statistical presentation. A list of these enterprises by province follows:

Provincial Government Enterprises

Newfoundland and Labrador:

Division of Northern Labrador Affairs
Liquor Control Board
Newfoundland Fibreply Ltd.
Newfoundland Power Commission
St. John's Housing Corporation

Prince Edward Island:

Prince Edward Island Industrial Corporation
Prince Edward Island Liquor Control Commission

Nova Scotia:

Halifax Dartmouth Bridge Commission
Industrial Estates Ltd., including:
Springhill Development Corporation
Keltic Lodge
Nova Scotia Development Commission
Nova Scotia Liquor Commission
Nova Scotia Power Commission

New Brunswick:

New Brunswick Electric Power Commission
New Brunswick Liquor Control Commission
New Brunswick Development Corporation

Quebec:

Liquor Commission
Quebec Autoroutes
Sugar Refinery
Quebec Hydro

Ontario:

Hydro Electric Power Commission of Ontario
Liquor Control Board of Ontario
Ontario Food Terminal Board
Ontario Northland Transportation Commission,
including: Star Transfer Ltd.
Ontario Savings Office
Ontario Stock Yards Board

Manitoba:

Manitoba Agricultural Credit Corporation
Manitoba Development Fund
Manitoba Farm Loans Association
Manitoba Hydro
Manitoba Liquor Control Board
Manitoba Telephone System
Manitoba Water Supply Board

Saskatchewan:

Saskatchewan Fur Marketing Service
Saskatchewan Government Forest Products:
Timber Division
Saskatchewan Government Insurance Office
Saskatchewan Government Liquor Board
Saskatchewan Government Printing Company
Saskatchewan Government Telephones
Saskatchewan Government Transportation
Company
Saskatchewan Guarantee and Fidelity
Company Ltd.
Saskatchewan Mineral Corporation:
Clay Products Division
Sodium Sulphate Division
Saskatchewan Power Corporation
Saskatchewan Economic Development Corp.

Alberta:

Alberta Government Telephones
Alberta Government Treasury Branches
Alberta Industrial Corporation
Alberta Liquor Control Board
Alberta Marketing Service Ltd.
Bow River Development
St. Mary and Milk Rivers Development

Yukon Territory:

Liquor Control Board

Northwest Territories:

Liquor System

4. **WORKMEN'S COMPENSATION BOARDS:** Separate data for the Workmen's Compensation Board of each province (for which data is available) is shown. Prior to April 1962 this data was included with "Provincial Government Enterprises".

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. For the purpose of this report, Salary Earners include all monthly or annually rated staff whether employed on a full-time or a part-time basis. Wage earners are divided into two groups: 1) Wage Earners - Full-Time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded.

Employment and payrolls have been reported for each pay period, and in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.

GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprehends the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

JULY - SEPTEMBER 1965

The gross payrolls of provincial government employees reached a new peak in the quarter ending September 30, 1965. This resulted primarily from: (1) the normal seasonal increases in the "Transportation and Communications" and "Natural Resources" functions; (2) the payment of retroactive salary increases by a number of the provincial governments and (3) an additional pay period occurring during this quarter for those employees that are paid on a fortnightly basis.

Data for Departmental Services, Government Enterprises and Workmen's Compensation Boards of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education are included.

The 278,616 employees reported for September 1965 represents 4.3 per cent increase over September 1964 (267,091) and a 2.1 per cent increase from June 1965 (272,790).

Payrolls of employees for the July-September 1965 quarter totalled \$316.4 million a gain of 11.9 per cent over July-September 1964 (\$282.6 million) and of 10.7 per cent from April-June 1965 (\$285.7 million).

Total payrolls of provincial employees (available for inclusion in this report) for the period January 1 - September 30, 1965 amounted to \$867.9 million. Employees in Departmental Services earned \$518.4 million or 59.8 per cent of the total while staff of Institutions of Higher Education received \$93.8 million or 10.9 per cent. Those of Enterprises earned \$244.6 million or 28.1 per cent and Workmen's Compensation Board staffs received \$11.2 million or 1.2 per cent.

PROVINCIAL GOVERNMENT EMPLOYMENT

OCTOBER - DECEMBER 1965

The gross payrolls of provincial government employees were 2.0 p.c. lower during the quarter ended December 31, 1965 than in the July-September 1965 quarter. This was due primarily to decreased seasonal activities in the "Transportation and Communications", "Natural Resources" and "Recreation and Cultural Services" functions.

Data of Departmental Services, Government Enterprises and Workmen's Compensation Board of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education are included.

The 267,730 employees reported for December 1965 represents 6.7 per cent increase over December 1964 (250,855) and a 3.9 per cent decrease from September 1965 (278,616).

Payrolls of employees for the October-December 1965 quarter totalled \$310.2 million, a gain of 11.6 per cent over October-December 1964 (\$277.9 million) and a decrease of 2.0 per cent from July-September 1965 (\$316.5 million).

Total payrolls of provincial employees (available for inclusion in this report) for the year 1965 amounted to \$1,178.3 million. Employees in Departmental Services earned \$702.6 million or 59.7 per cent of the total while staff of Institutions of Higher Education received \$128.9 million or 10.9 per cent. Those of Enterprises earned \$331.4 million or 28.1 per cent and Workmen's Compensation Board staffs received \$15.3 million or 1.3 per cent.
